

Our Teaching Methods

Discovery Preschool uses Developmentally Appropriate Practices set by the National Association for the Education of Young Children (NAEYC) in developing our theme-based curriculum. Our Lead Staff ensures that your child will be given the opportunity to learn and grow using all of their five developmental areas: Physical, Emotional, Cognitive, Social and Creative.

A lesson plan is posted weekly for parents to be able to see what their child will be able to explore on a daily basis. We encourage our parents to take this information home and talk with your child about their day. A daily schedule is in place for the children to form a sense of “routine”, however when given the opportunity to go with a “teachable moment,” our staff will change events to accommodate the needs of the classroom.

Discovery Preschool also understands that not all children develop in the exact same way; we adapt our curriculum on a daily basis to meet the needs of all children in the classroom.
